

## FREQUENCY: AFTER EACH CLIENT

### 4 Steps to Disinfection

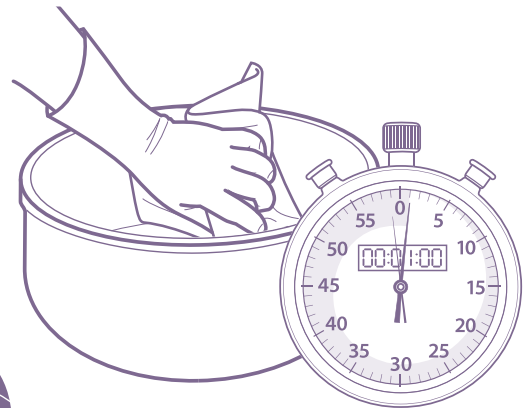

**1** Drain the basin and remove any visible debris.

**2** Clean the basin with a clean brush and detergent or Rejuvenate™. Rinse and drain.

**3** Disinfect basin with Rejuvenate™ RTU or Wipes ensuring surface remains wet with disinfectant for 1 minute\*.

**4** Drain and rinse with clean water.

*\* Rejuvenate RTU and Wipes: 1 minute for bacteria and viruses, 5 minutes for TB (mycobacteria), and 10 minutes for fungi. Contact times over 5 minutes may require re-application.*
