

Wall Mounted Air Purifier

Product Details

- This salon air purifier effectively removes vapors, odors, and dust from the room air using HEPA and Activated Carbon filters.
- **In addition, the wall mount air purifier captures and deactivates airborne viruses and bacteria using UV light and Flexzorb™ anti-viral material integrated into the filter.**

System Features

- The unit is fitted with twin fans that pull the toxic air through a Glass Hepa Filter graded to EU Standard EN-1822 which removes 99.999% of pollutants, dust, pet dander, pollen etc. to 0.3 microns and above (below 0.7 microns particles are invisible to the human eye). This makes it particularly suitable for Asthma and Hay Fever Sufferers.
- Can stand on a desk or easily mounts to the wall to save precious floor space.
- Services rooms up to 215 square feet. If your room is bigger than this, two or more at each end of the room are suitable.
- The unit comes with a remote control, and has a sleep function, 1 hour timer and 3 hr. timer and a filter replacement warning.
- The unit also includes UVC light that kills bacteria AND Virus safely in your room and an Ion Generator which produces "Air Vitamins" to improve your health.
